

# FORENSIC PRODUCT CATALOG

## Gunshot Residue Collection Kit (For Skin)

Catalog # GSR-SEM

In our gunshot residue collection kit, scanning electron microscopy (SEM) stubs are covered with double sided adhesive carbon tape. The stubs are designed to sample skin and recover small particles for analysis by SEM. Contained in each kit are four collection stubs to sample the right and left hands (back and palm), a control stub, latex gloves, information sheet, and an evidence seal.

## Fabric/Surface Sampling Kit

Catalog # FOR-STUB

In our fabric/surface sampling kits, stubs are covered with a double sided adhesive tape. Solid particulate can be collected from a variety of surfaces such as car interiors, table tops, shoes, and clothing for analysis by SEM. These stubs can also be used as passive samplers. Contained in each kit are 6 unlabeled collection stubs.

## Forensic Animal Hair Atlas on CD-ROM

Catalog # FOR-CD1

This searchable CD-ROM contains high-resolution SEM and optical images of 35 different species of the most common animal hairs encountered in forensic casework. Also included in the CD is a complete examination guidebook, comprehensive bibliography, microscopic characterization, and many more important topics in animal hair characterization.

## Plume Study CD

Catalog #PLV-CD

A study of plume concentrations from the discharge of weapons most commonly used in the United States. The objective of this CD is to illustrate areas of the highest potential gunshot residue deposition under static firing conditions.
